

Global dental leader appoints new Regional Manager North Greece!

Yes, we are a truly international recruitment firm, supporting high qualified candidates finding their next career step! Recruiting for companies around the world is not only a job for us, but a mission. But to be true, if we have the chance to fill a position in our beautiful home country Greece we are extra motivated and happy!

So happened this week! A global dental company hired a Greek Market Specialist identified by Grecreruitment. Our recruiter Ms. Xenia Pasternak once again nailed it and finished successfully a very difficult search project.

Before getting in touch with Grecreruitment the company was looking for more than 12 months to find the right match who can help them achieve the high expectations for the upcoming years.

Congratulations to our candidate and congratulations to our client. A win win situation and a best case scenario!
